

Asia Pacific Chapter

High Technology Crime Investigation Association

Forensics Training Workshop

WinHex and X-Ways Forensics

Introduction

The Asia Pacific Chapter of the HTCIA is proud to announce another computer forensics training event. This time we bring a unique opportunity to learn from an international guest speaker who is renowned around the world for having developed one of the most advanced forensic investigation tools currently available on the market.

Date: Saturday 24th June 2006
Time: 1400 – 1730 Hrs
Venue: CUHK SCOPE Computer Lab, 8/F United Centre,
Queensway, Admiralty
Cost: HK\$300- (HTCIA Members)
HK\$350- (HKCS, PISA & ISFS Members)
HK\$500- (Non-members)

Speaker:

Mr. Stefan Fleischmann, Chief Executive Officer of “X-Ways Software Technology AG”

“Stefan originally started a software development business (sole proprietorship) in 2000 while studying at the University of Münster. He received the German equivalent of a Master’s degree in Information Systems in 2001. While working for Micronas, a semiconductor company where he trained employees internationally in SAP software, he started X-Ways corporation in April 2002 and concentrated on the computer forensics aspect of his software WinHex. In 2004, the forensic edition of that software, X-Ways Forensics, was released, and Stefan expanded the business into the computer forensics training field. He personally trains law enforcement officers and private sector forensic examiners in the USA and Germany, including federal government personnel in both countries, and supervises and participates in continued development of the company’s software. With more than 16,500 clients worldwide, X-Ways Software Technology considers itself the leading supplier of computer forensics software in Europe.”

Workshop Agenda:

Introduction to the main features of X-Ways Forensics, integrated computer forensics software:

- Creating disk images
- Finding deleted, hidden, embedded files
- Efficiently viewing, sorting, filtering, categorizing files
- Quick ways to check for inappropriate pictures
- Creating and working with hash databases
- Logical searches, physical searches, index searches
- Registry viewer
- Internal RAID assembly
- Usage of evidence file containers
- Automated logging
- Creating reports

Benefits

All attendees will receive a fully functional time limited copy of the latest release of the powerful forensics software “X-Ways Forensics”. Attendees will also receive a certificate of attendance issued by the HTCIA.

Registration

Registration is on a first come first served basis and seats are limited due to the hands-on nature of the workshop.

To reserve a seat and receive payment options, please send an e-mail to workshop@htcia.org.hk.
